

## PRODUCT DATA SHEET

### CONCANAVALIN A COATED SURFACE

96 well plates

#### 1. Description

| Code          | Plate format                              | Strips colour | Volume per well | Breakable |
|---------------|-------------------------------------------|---------------|-----------------|-----------|
| MG07F-CON A   | 8 well strip on single well holding frame | Clear         | 350 µl          | Yes       |
| MGW07F-CON A  | 8 well strip on single well holding frame | White         | 350 µl          | Yes       |
| MGB07F2-CON A | 8 well strip on single well holding frame | Black         | 360 µl          | Yes       |
| MT07F4-CON A  | 8 well strip on 12 x 8 frame              | Clear         | 360 µl          | No        |
| MTW07F4-CON A | 8 well strip on 12 x 8 frame              | White         | 360 µl          | No        |
| MTB07F4-CON A | 8 well strip on 12 x 8 frame              | Black         | 360 µl          | No        |
| MC07F-CON A   | 96 well solid plate                       | Clear         | 400 µl          | No        |
| MCW07F-CON A  | 96 well solid plate                       | White         | 400 µl          | No        |
| MCB07F-CON A  | 96 well solid plate                       | Black         | 400 µl          | No        |

|             |                   |                             |
|-------------|-------------------|-----------------------------|
| Strip/plate | Material          | Polystyrene                 |
|             | Well bottom       | Flat                        |
|             | Well shape        | Round                       |
| Frame       | Colour            | White                       |
|             | Material frame MT | Polypropylene + glass fiber |
|             | Material frame MG | ABS                         |
| Dimensions  | SBS standard      |                             |

#### 2. Features

|                   |                                                                                                                                                          |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Surface           | Concanavalin A                                                                                                                                           |
| Volume coating    | 200 µl                                                                                                                                                   |
| Blocking          | All plates are pre-blocked for low non specific binding                                                                                                  |
| Volume blocking   | 300 µl                                                                                                                                                   |
| Uniformity        | CV% < 5% with our standard test. For further details see Certificate of Quality                                                                          |
| Packaging         | Each plate is packed in a barrier bag resealable with zip with desiccant                                                                                 |
| Storage           | 2 – 8 °C.<br>Once opened, place unused strips or plates in a resealable bag with desiccant and store at 2 – 8 °C. Plates are shipped at room temperature |
| Shelf life        | 2 years from date of manufacture                                                                                                                         |
| Sterile           | No                                                                                                                                                       |
| Ready to use      | Yes                                                                                                                                                      |
| Other information | All lots are tested for uniformity and reproducibility<br>Certificate of Quality is released for every lot                                               |
